ALGERIA – MINISTRY OF ENERGY AND MINING

THE ALGERIAN MINISTRY OF ENERGY AND MINES is essentially in charge of the following:

- Regulation and promotion of the whole sector activities and the steps for national integration
- Policies and strategies for the valorization of natural resources
- Laws and regulations related to electricity, hydrocarbons and mining

www.mem-algeria.org

ALGERIA - NATIONAL AGENCY FOR MINES PATRIMONY

THE ANPM is responsible for:

- Supervision and coordination of mines activities
- Supplying assistance to investors in the implementation of their mining projects
- Promotion of small and medium mines

ANPM promotes, encourages and suggests ways in order to organize a practical development of mine projects.

www.mem-algeria.org

BAOBAB RESOURCES PLC

BAOBAB RESOURCES has a portfolio of projects in Mocambique, the most advanced being the defunct Mundonguara copper/gold mine where recently completed drilling was designed to lead to an initial resource estimation and a Feasibility Study by the end of 2008. The company's secondary focus is the Tete magnetite deposits where high grades of iron ore returned from sampling late in 2007 will be followed up by an aggressive exploration programme to rapidly confirm tonnage and grade. Other projects include Broken Hill-style base metal occurrences at Changara and the Bandire gold mine.

NAMAKWA DIAMONDS

Following its successful Initial Public Offer on December 19, 2007 on the London Stock Exchange, NAMAKWA DIAMONDS is the only quoted vertically integrated diamond mining company. Its strategy of backward integration from its 30 years of beneficiation experience into mining has created a unique public investment proposition. Namakwa Diamonds has a diversified portfolio of diamond projects, which includes five distinct diamond resource target areas. These are located in four African countries, namely; South Africa, the DRC, Namibia and Angola. Namakwa's projects are located within historically prospective geological environments. Alluvial diamond deposits constitute the primary focus of the company, whilst kimberlite opportunities will be considered if they represent an advanced stage of development, consistent with Namakwa's philosophy of a short resource delivery time as provided by its alluvial diamond mines.

www.namakwadiamonds.co.za

NAMAKWA DIAMONDS

NATURAL RESOURCES CANADA (NRCAN)

NATURAL RESOURCES CANADA (NRCAN) plays a pivotal role in helping shape the important contributions of the natural resources sector to the Canadian economy, society and environment. This sector – forests, energy, minerals and metals, and landmass, as well as related industries – is one of the most productive, high-tech sectors in the global economy.

www.nrcan.gc.ca

PLATINUM GROUP METALS LTD.

PLATINUM GROUP METALS LTD. is based in Vancouver BC, Canada and Johannesburg, South Africa, with a management team that has successful track records of more than 20 years in exploration, mine discovery, mine construction and mine operations. The Company is focused on the development of platinum operations. It holds significant mineral rights in the Northern and Western Bushveld Igneous Complex of South Africa. Platinum Group is also a significant mineral rights holder in the area surrounding Canada's only primary platinum and palladium mine near Thunder Bay, Ontario Canada.

www.platinumgroupmetals.net

PLATMIN LIMITED

PLATMIN (PPN:TSX, AIM) is incorporated in Canada as a mineral exploration and development company focused on the exploration and development of platinum group metal (PGM) deposits in South Africa. Platmin is listed on the AIM Market of the London Stock Exchange Plc (AIM) and the main board of the Toronto Stock Exchange in Canada (TSX). Platmin's goal is to become a significant producer of PGMs through the development and operation of several key projects into mines. All four of Platmin's key projects – Pilanesberg, M'Phatlele, Grootboom and Loskop - are located on the Bushveld Complex of South Africa, a geological structure that is estimated to contain approximately 90% of the world's platinum resources as well as some 80% of its chrome.

www.platmin.com

SHERRITT INTERNATIONAL CORPORATION

SHERRITT INTERNATIONAL CORPORATION is a diversified resource company involved in the production of thermal coal, nickel, cobalt, oil and gas and electricity. Sherritt's success is built on utilizing innovative technologies and the breadth of its financial and operational expertise to increase productivity and profitability. Sherritt continues to explore opportunities to grow its \$3.8 billion asset base through expansion of its existing businesses and strategic acquisitions. Sherritt's shares are listed on the Toronto Stock Exchange under the symbol "S". In addition to its significant nickel production, Sherritt operates and owns 41.2% of Royal Utilities Income Fund, the largest thermal coal producer in Canada. Sherritt currently produces over 30,000 barrels of oil equivalent per day and has 376 megawatts of power generation capacity.

www.sherritt.com

SOUTH AFRICAN DEPARTMENT OF MINERALS AND ENERGY (DME)

DME is the South African government department responsible for ensuring exploration, development, processing, utilization and management of minerals and energy resources for the benefit of all in South Africa. South Africa is one of the world's great mining powerhouses. It dominates the world's production of platinum-group metals, chrome ore, ferrochromium, gold, vermiculite, vanadium and aluminosilicates. It is the fourth largest exporter of steam coal. Its reserves of manganese, chrome ore, platinum-group metals, gold and vanadium are, by far, the largest in the world. It ranks among leaders in diamond mining and mineral processing technology. Mining accounts for 32.2% of South Africa's exports of goods, totaling US\$22.7 billion in 2006. The industry employed 458,600 people in 2006.

www.dme.gov.za

TRANSAFRICAN MINERALS LIMITED
