ASSOCIATION OF MINING ANALYSTS (AMA)

The Association of Mining Analysts (AMA) is a non-profit organization representing the broad mining community in the UK with a membership of around 300. Its remit is to organise presentations and seminars on mining focused companies and sector related issues, with the aim of promoting better understanding of the minerals industry and its activities to the wider investment community. The AMA aims to organize regular presentations, seminars and master classes each for our members, which include senior company and/or industry representatives.

All AMA hosted and sponsored events allow further opportunities to talk to the speaker(s) in an intimate environment. These events, which are mainly held at various locations in the City of London, are usually sponsored by the presenting company/organisation.

In addition to regular professional events the AMA hosts and supports a range of informal range of networking opportunities within London.

**AXMIN INC. (TSX.V: AXM)**

AXMIN Inc. is a Canadian-based gold exploration company that is on the cusp of transitioning into one of Africa's newest producers. Under the guidance of George Roach, the 100% owned Passendro project has achieved many important milestones, namely securing all necessary permits including a 25-year Mining Licence, completing the robust revalidated Feasibility Study, strengthening the mine development team and advancing the debt facility negotiations. Recently, AXMIN announced the execution of its first Mandate Letter with The Standard Bank for US\$100MM and is working with other banking consortiums for the provision of an additional US\$100-130MM in debt for a total of up to US\$230MM in debt facility.

**GREAT QUEST METALS LTD. (TSX.V: GQ)**

Great Quest Metals Ltd explores for phosphate and gold in Mali. The Tilemsi phosphate project encompasses 737 km² in eastern Mali, boasting potential for large tonnage and high-grade phosphate rock for a growing domestic and international market. A track record for discovery and years of local experience have helped the Company secure a number of highly prospective gold concessions located along the productive Birimian greenstone gold belt in Western Mali. The Company first came to Mali in 1998 to explore for gold and discovered the Kenieba deposit which was successfully sold to Avion Gold.

LIONHART FUND ADVISORS LTD.

Founded in 1993 by Terrence Duffy with less than \$10 million, the genesis of Lionhart was Asian convertible bonds and warrant arbitrage traded from London. Lionhart has evolved into a truly global organization that allocates capital across different strategies in various industry sectors and asset classes. With offices in Toronto, New York, London and Singapore, our core expertise complements our vigorous commitment to innovative investment strategies and in-depth risk management. This philosophy has allowed Lionhart to produce above-average returns sixteen out of the last seventeen years. Lionhart currently holds around \$2.3 billion in assets, with over \$400 million invested in long-term growth assets, primarily in natural resources and much in Africa.

**PELANGIO EXPLORATION INC. (TSX.V: PX)**

Pelangio successfully acquires and explores camp-sized land packages in world-class gold belts, while using innovative corporate restructuring to maximize shareholder value. The Company primarily operates in Ghana, West Africa, an English-speaking, common law jurisdiction that is consistently ranked amongst the most favourable mining jurisdictions in Africa. Drilling is currently underway on two 100%-owned camp-sized properties: the company-making 100 sq km Manfo Property, the site of five recent near-surface, high grade and bulk tonnage, gold discoveries, and the potentially game-changing 290 sq km Obuasi Property, located four kilometres on strike and adjacent to AngloGold Ashanti's prolific, high-grade Obuasi Mine, which has produced over 30 million ounces of gold since 1897.

**PREVAIL GOLD**

Prevail Gold is a private company owning 100% of the Koutougou permit in the northern part of Burkina Faso and will own 100% of Dar es Salam prospective permit located in southern Niger by October 2011. Both of these properties within greenstone belts have a geological resource totaling 250,000 oz defined by previous owners and are neighboring gold mines owned by IAMGOLD, Avocet and Semafo.

Current financing is to confirm these resources and expand them. A well experienced management team with expertise in gold exploration and gold production will bring these projects forward.
